

AI-Driven Data Protection

for the Modern Digital Workplace

Did You Know?

of organizations admit they do not know where their confidential information is*

Challenge

With data breaches increasing in frequency, severity and coverage, we now live in a world where data loss is the new normal. Organizations of all sizes that fail to protect their data can expect to experience any or all of the follow 3 results:

- 1 Loss in Business
- 2 Regulatory Non-Compliance
- 3 Increased Risk Exposure

Solution

Sensitive Data Discovery platform that enables End-to-End Data Protection Powered By Pioneering Artificial Intelligence

Benefits

Developed by industry pioneers for business users, Dathena intimately understands your data privacy and protection needs, and has solved them with our own evolutionary Artificial Intelligence. Our users enjoy the following key benefits:

Cost Reduction

30% decrease in data management cost

80% decrease in data security ops cost

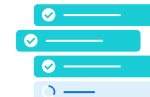

Risk Reduction

Reduce reputational risks that could lead to a profit loss of 80%
